

APPENDIX

ACTIONS WITHIN THE FRAMEWORK OF THE SUSTAINABLE DEVELOPMENT POLICY OF THE OBSERVATORY

We invite the organisers to take into account the following guidelines, so that the events organised respect the Observatory's sustainable development policy.

Organisers are invited to provide a carbon footprint for the event. To simplify the task for organisers, we will set up a simple carbon footprint calculation tool that each participant can fill in when registering for the event via the participant registration form:

https://centre-janssen.observatoiredeparis.psl.eu/Inscription?id_evenement=187

This form will be accessible from the event page, example:

<https://centre-janssen.observatoiredeparis.psl.eu/-TEST->

The organisers are invited to encourage participants to travel by train whenever possible and to avoid very long-distance travels for a short stay.

Particular attention should be paid to the organisation of coffee breaks, drinks and cocktails in order to avoid food waste; to minimise the use of plastic packaging; to favor food and drinks which have been produced according to a sustainable development policy.
